

Google Cloud Platform

My First Project

Search products and resources

Welcome, Kevin

Get started with Google Cloud

Begin with the basics

Get up and running quickly by checking off common tasks

[GO TO CHECKLIST](#)

Setting up Google Cloud for scalable, production-ready enterprise workloads? Use the [Google Cloud setup checklist](#) designed for administrators.

What's covered

- Reviewing billing, credits, and projects
- Finding products and APIs
- Adding resources to a project
- Understanding and calculating pricing

Top products

[VIEW ALL](#)

Compute products

Compute Engine

Made by Google

Scalable, high-performance virtual machines

[GO TO COMPUTE ENGINE](#)

Other popular compute options

[Kubernetes Engine](#)
One-click Kubernetes clusters, managed by Google

[App Engine](#)
A platform to build web and mobile apps that scale automatically

[Cloud Run](#)
Fully managed compute platform for deploying and scaling containerized applications quickly and securely

[Functions](#)
Event-driven serverless functions
